Bill Tracker

YEAR _____

Write each bill once with the day it is due. Tick Auto if it pays itself, then tick the month when it is paid.

Yearly & irregular bills

BILL	MONTH DUE	AMOUNT	SAVE / MO

Turn big bills into small ones. Divide a yearly bill by the months left before it is due. A $360 bill due in 12 months needs $30 set aside each month. Add that amount to the Savings section of your monthly budget.
